GARRISON MSS.

Dear Garrison —

We are desirous of having the Address of the Ex Com of the Central N. Y. A. S. Society, together with the account of the Winfield Convention for gratuitous circulation in this Section — I see that neither is yet published in the Liberator — If both can be published in next Friday's Paper and one hundred extra Copies forwarded to the, Care of J. Wright, we will settle with you for the same — The lines are now drawn and every effort is made by the enemy to thwart the people — New organization is the same every where — It seems now like being thrown back to the times of '38 '39 and '40 in N. E. All the same devices are adopted — J. C. Jackson is a main actor in this drama — 'Tis his head and hatter that lines him to do this devil's work — Stewart and Chaplin are the next biggest in the affair — B. Green and Co. are not so grossly out — They will get up an other edition soon, I presume, which shall look vastly more like the real book —

Cannot something be done to bring Child up to the high water mark — We are hope if the Standard

hole as the time work — The Press could not live
six months if it were put on the same tracking
of the Standard to Whiggism. I presume Child thinks
he is doing God's service by this daubing with
untempered mortar. But I cannot think his sincer-
ity in an error is any reason for his continuance in
the Editorial Chair — His sight is not sufficiently
clear — He is doing the cause as much mischief as if
he were not honest — I am dissatisfied with the
congratulatory resolutions of the Boston Female A.S.
Society — I long to see you out upon the Stewart
clique in N.Y. — Pray dont spare Jackson — He is
the greatest villain in this whole affair I think —
You will see by the last No's of the Pap the desperation
into which he is driven —
You know without my saying any thing about it, what
is the state of affairs here, and therefore if you can think
it will answer to get out the Circulars must work with
reference to our wants you may forward as two hun-
dred instead of one hundred copies — by express —
Will you do what in you lies to induce N. Phil-
lips and the Hutchinsons to attend our annual
meetings. — I must have an assurance that some
such worthies will be here in order to bring the

Justice in — There will be the most important meetings ever held here — There is an inclination among almost all the abolitionists to go from us — They have got a party Spirit and have been filled with the prejudices early learned out by the Emancipator and the Friend of Man — Then again they have got the idea thoroughly instilled into their minds that Slavery can be abolished only by getting abolitionists into office — Hence their main engine are directed to electioneering — Our main dependence will be on the moral conviction. It is harder to bring a Pharisaical abolitionist to the simplicity of abolitionism than a Publican or Harlot —

In great haste Yours affectionately

Abby Kelly

P.S. Mr and Mrs. Wright with their warmest regards to you — Love to your family —

I am obliged to send this to the Express boy and therefore cannot pay postage — Please charge to my account — I have an account at 25 —
